CEDAR

Product special point

1, can be used for pipe end reducing, expanding, bulging, pier bar and other shapes of processing molding

2, the machine structure is compact, strong, the use of hydraulic power, stable work, high yield, low vibration, low noise characteristics

3, hydraulic automatic pipe section forming machine, the use of linear guide rail as the carrier, so that the operation without wear, product repeatability is good, suitable for iron pipe, furniture, automobile air conditioning, fuel pipeline and other end treatment.

Product details

Product details of Zhangjiagang cedar Seiko technology Co., Ltd

PLC control: easy to operate, easy to learn

Input the corresponding parameters on the panel, simple and convenient, easy to operate

Product details

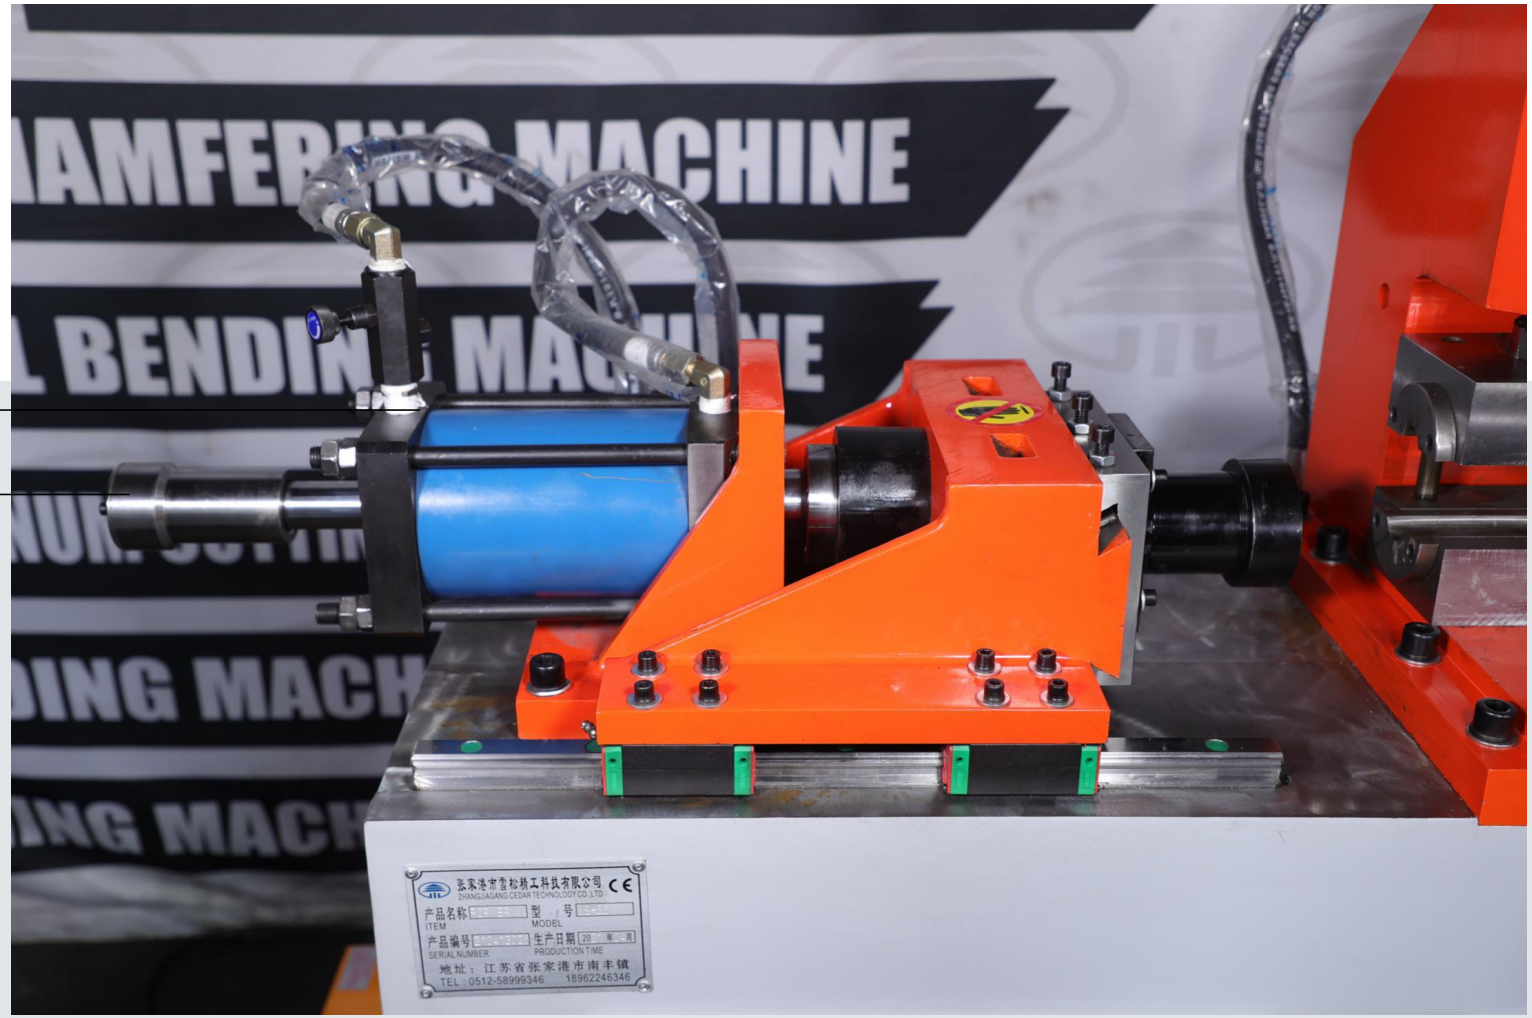

Product details of Zhangjiagang cedar Seiko technology Co., Ltd

Independent production of oil cylinders

Durable, stable and not leaking

Limit nut

Adjust the limit nut, you can adjust the shrink pipe stroke

Equipment parameter

Equipment configuration of Zhangjiagang cedar Seiko technology Co., Ltd

item	unit	XS-40NC
Maximum applicable carbon steel pipe	mm	Φ38*2.0
Single side shrink tube size	mm	2
Maximum working stroke	mm	100(can be extended)
Working speed	Mm/sec	100/8-10
Maximum oil pressure	Mpa	14
Motor power	kw	4
Oil pump displacement	L	19
Machine weight	kg	650
Machine size	mm	2000*800*1500

Equipment parameter

Equipment configuration of Zhangjiagang cedar Seiko technology Co., Ltd

Single/double station pipe shrinking machine					
Machine type	**unit**	**XS-40-I/II**	**XS-60-I/II**	**XS-80-I/II**	**XS-100-I/II**
Maximum applicable pipe fitting	mm	Φ40×2.0	Φ60×2.0	Φ80×3.0	Φ100*4.0
Single side shrink tube size	mm	2.5	2.5	2.5	2.5
Maximum working stroke	mm	150	150	150	150
Oil pressure output	Mpa	12	14	14	16
Motor power	KW	4	5.5	7.5	11
Oil pump capacity	L	19	23	29	33

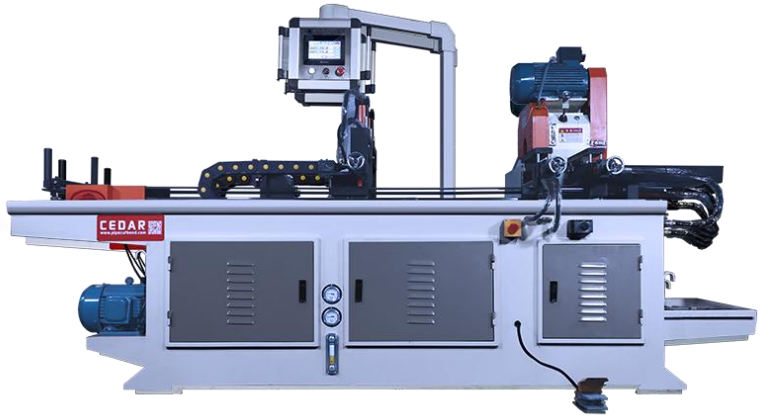

Equipment configuration

Equipment configuration of Zhangjiagang cedar Seiko technology Co., Ltd

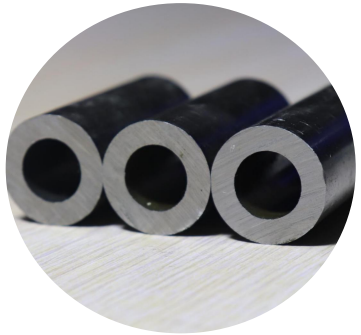

Electrical control part	
microcomputer	Changzhou
Oil pump motor	Wuxi Taihu special motor
Proximity switch	Chint
Electromagnetic contactor	Chint
The hydraulic part	
Hydraulic oil pump	Wing Ling Taiwan
Hydraulic solenoid valve	Taiwan seven seas
Hydraulic cylinder	Precision self-made

Company advantage

Product advantages of Zhangjiagang cedar technology Co., Ltd

Zhangjiagang xuesong precision work technology

Zhangjiagang Cedar Seiko Technology Co., Ltd. is located in Zhangjiagang, a new port industrial city at the intersection of coastal and Yangtze River economic development belts. It is a new enterprise integrating industrial automation system development and production, non-standard automation product research and development, production and sales services. The company is mainly engaged in aluminum cutter/pipe cutter/chamfering machine/pipe bender/rounding machine/pipe shrinking machine/pipe end forming machine. The company's products are applied to the processing of metal tube products in automobile, air conditioner, motorcycle, electric vehicle, bicycle, sports and fitness equipment, steel tube furniture, tourism and leisure products, water heating and bathroom, etc., and provide efficient mechanical equipment.Zhangjiagang Cedar Seiko Technology Co., Ltd. is located in Zhangjiagang, a new port industrial city at the intersection of coastal and Yangtze River economic development belts. The company's products are applied to the processing of metal tube products in automobile, air conditioner, motorcycle, electric vehicle, bicycle, sports and fitness equipment, steel tube furniture, tourism and leisure products, water heating and bathroom, etc., and provide efficient mechanical equipment.

Geographical advantage

The company is located in Nanfeng Town, Zhangjiagang City, Jiangsu Province, is a precision machinery, mechanical and electrical manufacturing and other heavy industry cluster belt, convenient transportation, products exported at home and abroad.

After-sales team

The company has a professional after-sales team, can telephone training guidance, but also on-site maintenance to solve the machine failure.

Source factory

The company's products are self-produced and self-marketed, which can control product quality at the source; Lower price for the same quality; After sale is more guaranteed.

customizable

In addition to conventional off-the-shelf machinery, the company can also transform conventional machines according to customers' processing requirements and workpiece drawings to meet customers' individual needs.

Company qualification

Qualification of Zhangjiagang cedar technology Co., Ltd

After-sales service

After sales service of Zhangjiagang cedar Seiko technology Co., Ltd

The machine is guaranteed for one year.

The equipment is guaranteed for 12 months before leaving the factory. During the warranty period, the supplier shall provide free warranty for any manufacturing quality problems, and the user shall bear reasonable repair fees for other reasons. After the expiration of the warranty period, spare parts and good service are still provided, and the fees are reasonable.The equipment is guaranteed for 12 months before leaving the factory. During the warranty period, the supplier shall provide free warranty for any manufacturing quality problems, and the user shall bear reasonable repair fees for other reasons. After the expiration of the warranty period, spare parts and good service are still provided, and the fees are reasonable.

Quick corresponding and timely processing

When the equipment is in use, if it breaks down, the supplier will respond within 2 hours after receiving the notice from the buyer. If it can't be solved directly on the phone, send someone to the scene within 24 hours, and the general fault will be solved within 48 hours, and the major fault will be solved as quickly as possible, in principle, it will not exceed 72 hours (except holidays).

Thank you for your support and trust in Cedar Seiko.
