XS-130 Automatic double-head chamfering machine

Native electric and pneumatic control, professional of pipe end face, outside and inside an automatic chamfering shaving work, quickly and accurately, both ends at the same time, a processing, particularly suitable for mass production. It can also be used for bar reprocessing.

Features of the device:

1.Automatic feed, quick and accurate, save manpower.

2.The special designed feed mechanism is accurate and reliable, and the intermediate transport station can choose the type of the necessary type according to the outer diameter of the pipe.

3.Strong head design, power head and motor drive, head fixed. Growth knife life.

4.Use self-centering fixture to ensure the processing concentricity.

5.With the speed of double speed of the shock absorber, it saves working hours, and is easy and easy to adjust and perfect.

6.Whole process electrical, pneumatic automatic control, pneumatic clamping, pneumatic feed, easy operation.

7.The system is manual, automatic and easy to debug and use.

8..End special cutter design, using normalized blade, adjust the knife is simple and convenient, the tube Angle, corner, surface finish in one time, an average of 3 to 10 seconds a (according to the size of the pipe diameter and thickness), fast efficiency.

9.Adapting materials: steel, iron, aluminum, copper, stainless steel, etc.

Technical Parameters:

project	unit	Technical indicators(130)
Host motor	kw	3HP-6 level（bilateral）
Spindle speed	r/min	1600
Air pressure	Kgf/cm2	7
The blade adapts to range	mm	φ70～φ130
Suitable for pipe fittings	mm	φ70～φ130
Workpiece length	mm	100～500(Can be customized non-standard)
Standard accessories	group	1、A set of standard knife plates(2th)； 2、A set of round clips
Machine size	mm	L2000mm×W1400mm×H1300mm
Machine weight	kg	1050

After-sales service:

1.Warranty period: We guarantee machine quality for one year, during this year, if spare parts of the machine were damaged, we can send the component to the customer by DHL, TNT freely.

2.Our factory can send our engineer to the customer's factory install, commission and training freely. The customer provide the double trip tickets, food and accommodation for our engineer. The customer also can send the engineer to our factory to learn the

operation and maintains freely.

3.Our factory provide the service for the customer forever, if the customer need operation help, can contact us by Skype,Whatsapp,WeChat, Email and Telephone at any time, we provide 24 hours on-line service.
