MC-315AC Pneumatic pipe cutting machine

一 ： Model introduction

MC - 315 ac metal circular saw machine, it is a kind of semi-automatic cutting machine, the company is on the introduction of foreign technology to innovation and development of new products, product performance up to the same industry advanced level, can cutting all kinds of cross section shape of ordinary steel, stainless steel, copper, aluminum and other metal profiles, especially in cutting all kinds of pipe is most ideal. Only when the cutting on the workpiece material, one of the workpiece clamping, loosen the finished, feed, and cutting back knife automatically by electric, pneumatic control, high efficiency, suitable for 24 hours of continuous operation.

Performance characteristics:

1.The cutting pipe is the best tool, the pneumatic clamp is automatic, besides the basic configuration, the clamp and the nose are all aerodynamic

2.No hair edge, no dust reversible clamp work balance, cut surface smooth and no margin, low noise and low noise pollution while sawing

3.Accurate, fast, clean cutting precision and speed over band saw and bow saw, smooth smooth smooth and clean and not hot, save the second processing

4.The nose can rotate about 45 degrees, the Angle is accurate and the interface is perfect.

5.Good cooling circulation system (the box body has a three-phase 40W cooling water pump, random action), ensure that the saw blade is used for life, the saw blade is blunt, but after grinding, it is used again and again.

二:315AC Pneumatic pipe cutting machine parameter:

project	Unit	MC-315AC	
Saw blade Angle	°	90°	45°
◎	mm	Φ100	Φ80
□	mm	80*80	60*60
∟	mm	80*80	60*60
▭	mm	90*60	60*60
●	mm	30	25
■	mm	25*25	20*20
The host power	KW	2.4/3.0	
Spindle speed	RPM	120/60 R/MIN	
Cooling water pump	W	40	
The compressed air	Mpa	0.5-1.0	
Machine Weight	KG	298	
Package Weight	KG	50	
Machine size	mm	620*950*1400 mm	
Package size	mm	1130*730*1550 mm	
Apply saw blade ø	mm	250/275/300/315/325	

After-sales service:

1.Warranty period: We guarantee machine quality for one year, during this year, if spare parts of the machine were damaged, we can send the component to the customer by

DHL, TNT freely.

2.Our factory can send our engineer to the customer's factory install, commission and training freely. The customer provide the double trip tickets, food and accommodation for our engineer. The customer also can send the engineer to our factory to learn the operation and maintains freely.

3.Our factory provide the service for the customer forever, if the customer need operation help, can contact us by Skype,Whatsapp,WeChat, Email and Telephone at any time, we provide 24 hours on-line service.
