315 Hydraulic automatic tube cutting machine

COMPANY PROFILE

Zhangjiagang city Cedar Technology Co., Ltd. is located in Zhangjiagang, an emerging port industrial city at the junction of the two major economic development belts along the coast and the Yangtze River. It is a new enterprise integrating industrial automation system development and production, non-standard automation product research and development, production and sales services.

We company's main products: semi-automatic pipe cutting machine, automatic pipe cutting machine, servo automatic pipe cutting machine production line: single-head chamfering machine, double-head chamfering machine, servo double-head chamfering machine, cutting chamfering production line; semi-automatic aluminum profile Cutting machine, automatic aluminum profile cutting machine; single-head hydraulic pipe bender, double-head pipe bender, servo fully automatic pipe bender: pipe end forming machine and other pipe processing equipment; meanwhile, the company can install and install on-site according to users' use. Need to design and manufacture the above-mentioned equipment with special specifications, and various non-standard mechanical products.

The company's products are used in the processing of metal pipe products in automobiles, air conditioners, motorcycles, electric vehicles, bicycles, sports fitness equipment, steel pipe furniture, tourism and leisure products, plumbing and sanitary ware industries, and provide efficient machinery and equipment.

The products are sold in large quantities in domestic and foreign markets and exported to more than 60 countries and regions (Germany, Brazil, India, Indonesia, Malaysia, Vietnam, United Arab Emirates, Russia and the United States etc. Southeast Asia, South America, Africa , Europe wait region

Quality: We always believe that good quality can speak, and only high-quality products are fundamental to the survival of an enterprise;

Technology: Facing the ever-changing sea of business, only continuous learning and innovation is the way to survive for an enterprise;

Service: Understand customer needs and meet customer needs. We do not just machines, but also customized machines. Your satisfaction is our constant pursuit!

Entrepreneurial spirit: the market is the direction of the enterprise, and

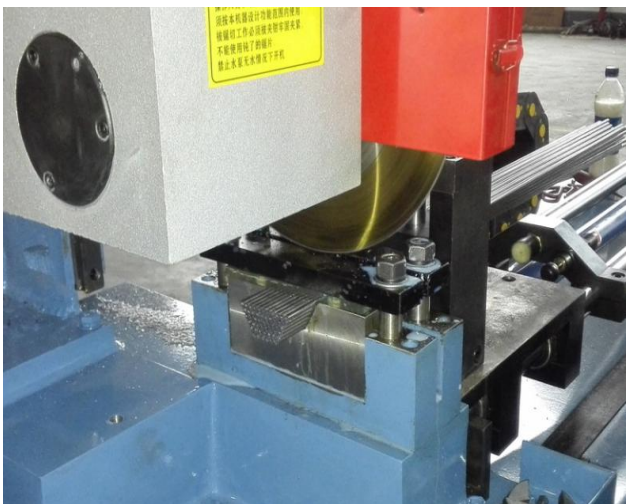

quality is the life of the enterprise. Without hard sweat, there will be no tears of success. Only through continuous learning can we keep pace with the times and be invincible.

Enterprise mission: make equipment, serve the society, and let more customers create greater value.

Service tenet: integrity first, efficiency first, customer first, service first.

Performance characteristics:

1.Automatic clamp :up and down or right and left .automatically clamp and cutting feed all adopt oil pressure auto type.

2.updown trapezoidal clamp, make the workpiece smooth, without burr phenomena, low noise, low pollution.

3.Cut：high-precision , high-performance, and the cutting surface doesn't burning

4.Using hydraulic cylinder, efficient / precision padding / quality guarantee

5.After operation automatic stop, saw blade is equipped with safety device, automatic lubricating 、refrigeration.

It's a kind of hydraulic automatic metal cutting machine, use to cut objects to get straight cross-section and suitable size . Machinable materials （stainless steel, copper, aluminum and other metal profiles）, Best for cutting all kinds of pipes . It is widely used by furniture, industry, sports equipment, tourism and leisure supplies, automobile, motorcycle, bicycle, baby carrier decoration, stainless steel, wrought iron decoration production, machinery processing and other industries.

The high-efficiency machine for volume production.

二、315 Hydraulic automatic tube cutting machine parameter

parameter	Unit	315 Hydraulic automatic
Controllable angle of saw blade	°	90°

	mm	100
	mm	70*70
	mm	120*50
	mm	120*50
	mm	20
	mm	15*15
Main motor power	KW	2.4/3.0
Feeding length	MM	1000
Cutting way		Hydraulic vertical saw blade
Spindle speed	RPM	120/60 r/min
Coolant liquid pump	W	90
Machine Weight	KG	800
Machine size	MM	2000*1200*1800
usable saw blade ø	mm	250/275/300/315/325

三、The machine configuration:

parameter	brand
Material transmission	Cedar company
Solenoid valve	GN
appliances	Taiwan taian
Oil cylinder	Shanghai baoshan
Oil tube	Taiwan poon fai
The oil pump	Taiwan spirit

The oil pump motor	Wuxi taihu special machine
Motor forepart	Wuxi taihu special machine

After-sales service:

1.Warranty period: We guarantee machine quality for one year, during this year, if any parts of the machine were damaged, we can send the components to you by DHL, TNT freely.、

2.Our factory can send our engineer to your factory to install、adjust and fixfreely. The customer provide the round-trip tickets, board and lodging for our engineer. The customer also can send the engineer to our factory to learn the operation and maintains freely.

3.Our factory provide the service for the customer forever, if the customer need operation help, can contact us by any time , we provide 24 hours on-line service.
