455AL Aluminum profile hydraulic cross cutting machine

Device introduction:

The equipment can be used for copper, aluminum alloy saw cutting, hydraulic drive saw blade, cylinder clamping material. The equipment has the advantage of cutting smooth, smooth, easy to

operate and easy to maintain, it is the best choice for copper and aluminum precision sawing at home and abroad.

1.Automatic pressure saves time and effort.

2.Automatic saws are safe and easy.

3.The internal saw can reduce the noise.

4.Saw is also automatic spray oil cooling system, saw blade not waste, saw blade is more durable.

5.The saw blade Angle is fixed and the cutting precision is improved.

6.The shelves have a positioning panel, which is more convenient to cut the material.

7.Cut the 45 ° Angle.

Parameter

Project	455AL Type	unit
Cutting Angle	90	°
Maximum sawing width	400/600	MM
Maximum sawing height	145	MM
Main motor power	4	KW
Hydraulic pump power	0.75	KW
Saw blade	355/405/455	MM

specifications		
Spindle speed	2880	R/MIN
Operating pressure	5-8	KG/CM³
Hydraulic pressure	6	MPA
main power	380	V
Feed speed	Infinitely adjustable-speed	
Cooling way	Cooling fluid （Emulsified oil）	
High table	800	mm
Working table size	790*595	mm
Equipment dimensions	1750*1400*790	mm

After-sales service:

1.Warranty period: We guarantee machine quality for one year, during this year, if spare parts of the machine were damaged, we can send the component to the customer by DHL, TNT freely.

2.Our factory can send our engineer to the customer’s factory install, commission and training freely. The customer provide the double trip tickets, food and accommodation for our engineer. The customer also can send the engineer to our factory to learn the operation and maintains freely.

3.Our factory provide the service for the customer forever, if the customer need operation help, can contact us by Skype,Whatsapp,WeChat, Email and Telephone at any time, we provide 24 hours on-line service.
