SG40 Double station tube end forming machine

Use the maximum size:Φ40*2.0mm ,Maximum working stroke:200mm

Product features:

1.It can be used in the processing of pipe ends, diameter, drum, pier and other shapes

2.The machine structure is compact and firm, with oil pressure power, stable job, high yield, low vibration and low noise

3.Equipment is made of double location forming, head forming close to size, 2 processing plastic, adjustment to the drawing requirements, suitable for the demand is higher, more complex artifacts or process

4.Hydraulic molding machine, automatic pipe section using linear guide as the carrier, make the operation without any abrasion, product good repeatability,

applicable to iron pipe, furniture, automobile air conditioner, the end of the fuel line, etc.

SG-40 Double station reducing machine parameter：

project	Unit	SG-40-II
Maximum applicable carbon steel pipe material	MM	40*2.0
Maximum working stroke	MM	200
Work Speed	Mm/sec	100/3
Maximum oil pressure	Mpa	12
motor power	KW	4.0
Oil Pump displacement	L	19
Machine weight	KG	1050
Machine size	MM	2400*650*1300

Product description:

1.Microcomputer control, hydraulic drive.

2.The mobile pedal switch has automatic, close stop, close stop three kinds of functions, high security.

3.For shrinkage pipe, expansion tube, blunt, beat a variety of ways, such as processing, processing including concave and convex section shape, long, flat, square, Rio tinto, oblique, V, and his mouth elbow, etc., in accordance with the user change mould processing products.

4.It is easy to change the mould and make it easy to produce. The bed structure is compact, strong, with oil pressure power, stable job, high yield, low vibration and low noise. It can be used for the forming of pipe ends, enlargement, drum, upset and other shapes. Applicable pipe fittings, car tubing, air pipe, water pipe, and air conditioning pipe connecting parts in various shapes.

After-sales service:

1.Warranty period: We guarantee machine quality for one year, during this year, if spare parts of the machine were damaged, we can send the component to the customer by DHL, TNT freely.

2.Our factory can send our engineer to the customer's factory install, commission and training freely. The customer provide the double trip tickets, food and accommodation for our engineer. The customer also can send the engineer to our factory to learn the operation and maintains freely.

3.Our factory provide the service for the customer forever, if the customer need operation help, can contact us by Skype,Whatsapp,WeChat, Email and Telephone at any time, we provide 24 hours on-line service.
