GY100 3-rollers hydraulic bending machine

Equipment features:

1. The reducer is driven by motor, with compact structure and high reliability.
2. Two roll drive, not easy to slip, thin wall and thick wall materials can be bent.
3. Rollers on both sides are symmetrically distributed to reduce straight sections
4. The pedal switch is additionally provided with emergency stop, which is easy to operate.
5. The transmission of the machine is balanced. Only the stroke of the pressing cylinder needs to be adjusted, and circular, arc or spiral shapes with different curvatures can be obtained.
6. By changing the mold groove, various metal profiles can be processed, such as angle steel, flat steel, round steel and other cross section profiles.
7. Bending large radius profiles avoids the disadvantages of making extra large bending dies, which is a necessary supplement to the series of single head and double head pipe benders.
8. You can roll back and forth to the required radian before reaching the required size.
9. This machine is suitable for medium and large batch production with high speed and efficiency

设备参数：

Specifications/models	Unit	GY-100
Maximum applicable carbon steel pipe	mm	Φ100*3.0

Minimum bending radius	mm	10-15 times the diameter of the fitting
Rolling speed	mm/s	50-150
Power of oil pump motor	Kw	11
Reducer model		500
The number of arcs can be set for each pipe fitting	个	1
Wheel mold speed	r/s	40
Transmission mode		Reducer
Reducing method		Cylinder reducing
Machine weight	kg	1200
Machine dimensions (L * W * H)	mm	2000*1500*1700

After-sales service:

1.Warranty period: We guarantee machine quality for one year, during this year, if spare parts of the machine were damaged, we can send the component to the customer by DHL, TNT freely.

2.Our factory can send our engineer to the customer's factory install, commission and training freely. The customer provide the double trip tickets, food and accommodation for our engineer. The

customer also can send the engineer to our factory to learn the operation and maintains freely.

3.Our factory provide the service for the customer forever, if the customer need operation help, can contact us by Skype,Whatsapp,WeChat, Email and Telephone at any time, we provide 24 hours on-line service.
