MC-315A High vertical column pipe cutting machine

The aircraft is a kind of extensions manual vertical metal cutting saw machine, can cutting all kinds of cross section shape of ordinary steel, stainless steel, copper, aluminum and other metal profiles, especially in cutting all kinds of pipe is most ideal. Tube is steel pipe furniture, industry, sports equipment, tourism and leisure supplies, automobile, motorcycle, bicycle, baby carrier decoration, stainless steel, wrought iron decoration production, machinery processing and other industries, the best equipment for mass production.

Performance characteristics:

1.The cutting pipe, the best tool for cutting the profile, the manual clamp is manual, except for the basic configuration, the clamps and nose are both manual

2.No hair edge, no dust reversible clamp work balance, cut surface smooth and no margin, low noise and low noise pollution while sawing

3.Accurate, fast, clean cutting precision and speed over band saw and bow saw, smooth smooth smooth and clean and not hot, save the second processing

4.The nose can rotate about 45 degrees, the Angle is accurate and the interface is perfect.

5.Good cooling circulation system (the box body has a three-phase 40W cooling water pump, random action), ensure that the saw blade is used for life, the saw blade is blunt, but after grinding, it is used again and again.

1.The cutter is the best tool for cutting and cutting, the manual clamp is manual, except for the basic configuration, the clamps and nose are both manual

2.No hair edge, no dust reversible clamp working balance, cutting surface smooth and no margin, low noise and low noise pollution while sawing

3.Accurate, fast, clean cutting precision and speed over the band saw and bow saw, smooth smooth and clean and not hot, save the secondary processing

4.The nose can rotate about 45 degrees, the Angle is accurate and the interface is perfect.

5.Good cooling circulation system (the box has a three-phase 40W cooling water pump, random action) to ensure the blade life.

6.This equipment saw blade can be reused, the saw blade can be cut and blunt, but it can be recycled and reused.

7. The structure of the machine is stronger, the column is higher, the casing is enlarged, and the 400 saw blade can be installed, and the large diameter workpiece can be cut.

315A High vertical column pipe cutting machine parameter

project	Unit	MC-315A	
Saw blade Angle	°	90°	45°
	mm	Φ120	Φ100
	mm	100*100	80*80
	mm	80*100	70*90
	mm	80*100	70*90
	mm	30	25
	mm	30*30	25*25
The host power	KW	2.4/3.0	
Spindle speed	RPM	120/60 转/分钟	
Cooling water pump	W	40	
Machine Weight	KG	210	
Machine size	mm	580*600*1500	
Apply saw blade ø	mm	300/315/350/400	

After-sales service:

1.Warranty period: We guarantee machine quality for one year,

during this year, if spare parts of the machine were damaged, we can send the component to the customer by DHL, TNT freely.

2.Our factory can send our engineer to the customer's factory install, commission and training freely. The customer provide the double trip tickets, food and accommodation for our engineer. The customer also can send the engineer to our factory to learn the operation and maintains freely.

3.Our factory provide the service for the customer forever, if the customer need operation help, can contact us by Skype,Whatsapp,WeChat, Email and Telephone at any time, we provide 24 hours on-line service.
