120AC single-head chamfering machine

The purpose of the chamfering machine:

Chamfering machine for chamfer on the edge of the workpiece before welding, using the sheet metal before welding deburring and chamfering processing, wash the cut edge of the steel plate

according to the point of view, in order to get the chamfer Angle welding required. Chamfer machine is suitable for processing of steel, cast iron, hard plastic, non-ferrous metal etc.

Performance characteristics:

1.The machine is able to complete the Angle and the face of the round and the ends of the round bar, and it can be done quickly and accurately.

2.In order to ensure that the centerline of the machining object and the knife dish is not changed, the die and knife plate are carefully designed, and can be processed uniformly.

3.The knife plate is specially designed, the blade is normalized and the tool is simple and fast.

4.Manual feed, automatic hijacking, automatic cutting edge, fast speed, increase production.

5.Speed semi-automatic machine type has two phases: the first stage to fast speed to save working time, cutting down angular velocity can be adjusted in the second stage to complete processing smooth completion of the surface.

6.To replace the different sizes of the workpieces, simply make a simple knife plate and replace the die adjustment.

7.Suitable for steel pipe, iron pipe, aluminum pipe, copper pipe, stainless steel, bar, PVC pipe, round bar and nylon tube.

project	120AC
Suitable for pipe diameter	120AC
Suitable for round bar	φ8-120mm
The workpiece length	φ5-35mm
The motor power	≥35mm
Barometric pressure	3KW
The machining accuracy	6-8KG/CM^2
Processing speed	±0.1mm
Machine size	1050*950*1320mm
Package size	1130*990*1370mm
Machine weight	300KG

After-sales service:

1.Warranty period: We guarantee machine quality for one year, during this year, if spare parts of the machine were damaged, we can send the component to the customer by DHL, TNT freely.

2.Our factory can send our engineer to the customer's factory install, commission and training freely. The customer provide the double trip tickets, food and accommodation for our engineer. The

customer also can send the engineer to our factory to learn the operation and maintains freely.

3.Our factory provide the service for the customer forever, if the customer need operation help, can contact us by Skype,Whatsapp,WeChat, Email and Telephone at any time, we provide 24 hours on-line service.
