XS-275S manual tube cutting machine

Performance characteristics:

1. The cutting pipe, the best tool for cutting the profile, the manual clamp is manual, except for the basic configuration, the clamps and nose are both manual

2.No hair edge, no dust reversible clamp work balance, cut surface smooth and no margin, low noise and low noise pollution while sawing

3.Accurate, fast, clean cutting precision and speed over band saw and bow saw, smooth smooth smooth and clean and not hot, save the second processing

4.The nose can rotate about 45 degrees, the Angle is accurate and the interface is perfect.

5.Good cooling circulation system (the box body has a three-phase 40W cooling water pump, random action), ensure that the saw blade is used for life, the saw blade is blunt, but after grinding, it is used again and again.

The aircraft is a kind of manual vertical metal cutting saw machine, can cutting all kinds of cross section shape of ordinary steel, stainless steel, copper, aluminum and other metal profiles, especially in cutting all kinds of pipe is most ideal. Tube is steel pipe furniture, industry, sports equipment, tourism and leisure supplies, automobile, motorcycle, bicycle, baby carrier decoration, stainless steel, wrought iron decoration production, machinery processing and other industries, the best equipment for mass production.

XS-275S **Parameter:**

project	Unit	XS-275S	
Saw blade Angle	°	90°	45°
	MM	Φ80	Φ60
	MM	75*75	50*50
	MM	75*75	50*50
	MM	75*80	50*50
	MM	20	

■	MM	15*15
The host power	KW	2.0/2.4
Spindle speed	RPM	120/60R/MIN
Cooling water pump	W	40
Machine Weight	KG≈	190
Machine size	MM≈	500*600*1450
Apply saw blade ø	MM	250/275/300

Procedures: connected to 380 v power supply, packed a special high speed steel saw blade, adjust the width of jaw - into the material - manual clamping material - down feed handle (saw blades rotate counterclockwise) saw material, push the handle knife back, turn back clamp device - remove the saw good material. In this cycle, you can cut 10 to 20 knives per minute depending on how skilled you are.

After-sales service:

1.Warranty period: We guarantee machine quality for one year, during this year, if spare parts of the machine were damaged, we can send the component to the customer by DHL, TNT freely.

2.Our factory can send our engineer to the customer's factory install, commission and training freely. The customer provide the double trip tickets, food and accommodation for our engineer. The customer also can send the engineer to our factory to learn the operation and maintains freely.

3.Our factory provide the service for the customer forever, if the

customer need operation help, can contact us by Skype,Whatsapp,WeChat, Email and Telephone at any time, we provide 24 hours on-line service.
